

Error correction enables use of Oxford Nanopore technology for reference-free transcriptome analysis

Kristoffer Sahlin, Botond Sipos, Phillip L. James, Paul Medvedev[†]

[†]Corresponding author, pzm11@psu.edu

The authors have withdrawn their manuscript as the author list was changed after publication of the paper. The listed authors wish that the published version should be considered/cited as a reference for the work reported, which has the correct author list. Please refer to and cite the published work. Besides the change in the author list, the only differences are in the Acknowledgements, Competing Interests, and Data Availability sections. If you have any questions, please contact the corresponding author.
