

Fig. S3. A. Xylem vessel number in the stems of five-weeks-old M82 and $35:pro\Delta 17$ plants. **B.** Representative stem cross-sections of M82 and $35:pro\Delta 17$. Scale bar = 50 μm. **C**. Area mean of individual xylem vessel in M82 and $35:pro\Delta 17$ stems. **D.** Total xylem vessel area in M82 and $35:pro\Delta 17$ stems. **E.** Hydraulic conductance measured in detached stem segments, taken from five-weeks-old M82 and $35:pro\Delta 17$. Values in **A**, **C**, **D** and **E** are means of 6 plants ± SE. Small letters represent significant differences between the lines (Student's t test, P<0.05).
