

Instructions

Make one highlight/annotation for each change (including replacements or changes, where text has been both removed and added). Highlight the word(s) most important to the change. Add an annotation in the comment below.

Annotation rubric

You can enclose comments in parentheses.

Select one attribute from each section below and link together with underscores, for example:

results_nounchange_1-
results_removed_3
conclusion_effect-_2

Section

Context

Background or methods

results

A statement linked directly to data

conclusion

Interpretations and/or implications

Type of change

added

New assertion

removed

Assertion removed
