List of Figures

S 1	Number of words in students' answers.			 . 2
S 2	Correlation between number of words and number of errors in all answers in 2019 and 2020 edition.			 . 2
S 3	Word cloud of the answers in Q2 questionnaire during 2019 edition.	•		 . 3

List of Tables

S 1	Bray-Curtis dissimilarity calculated with the survey responses of the 2019 edition
S 2	Bray-Curtis dissimilarity calculated with the survey responses of the 2020 edition
S 3	Difference in the Shannon index between the questionnaires Q1 and Q2, and Q1 and Q3 for 2019 edition 4
S 4	Difference in the Shannon index between the questionnaires Q1 and Q2, and Q1 and Q3 for 2019 edition 5

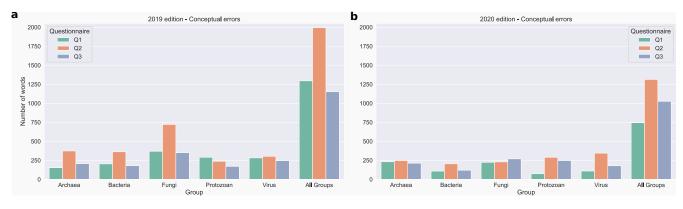

Figure S1. Number of words in students' answers. [a] 2019 edition; [b] 2020 edition.

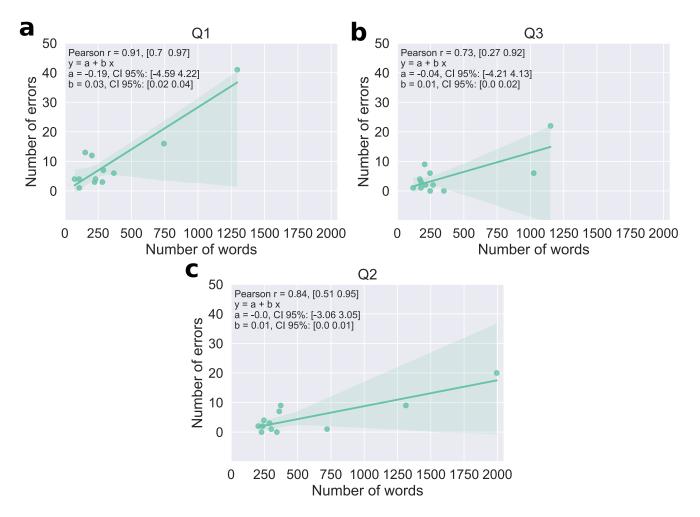

Figure S2. Correlation between number of words and number of errors in all answers in 2019 and 2020 edition. In each plot is indicated the Pearson's correlation coefficient and its confidence interval; as well as the linear regression model, with the intercept (a) and slope (b) terms and their respective confidence interval . **[a]** Q1 questionnaire; **[b]** Q2 questionnaire and **[c]** Q3 questionnaire.

Figure S3. Word cloud of the answers in Q2 questionnaire during 2019 edition.

2019 edition					
Crown	Q1-Q2		Q2-Q3		
Group	Bray-Curtis	CI 95%	Bray-Curtis	CI 95%	
All groups	0.20	[0.18; 0.35]	0.20	[0.16; 0.32]	
Archaea	0.41	[0.31; 0.71]	0.39	[0.31; 0.53]	
Bacteria	0.20	[0.14; 0.40]	0.37	[0.28; 0.47]	
Fungi	0.34	[0.28; 0.48]	0.30	[0.24; 0.43]	
Protozoan	0.19	[0.14; 0.38]	0.33	[0.22; 0.45]	
Virus	0.52	[0.45; 0.71]	0.44	[0.40; 0.61]	

Table S1. Bray-Curtis dissimilarity calculated with the survey responses of the 2019 edition.

Table S2. Bray-Curtis dissimilarity calculated with the survey responses of the 2020 edition.

2020 edition					
Croup	Q1-Q2		Q2-Q3		
Group	Bray-Curtis	CI 95%	Bray-Curtis	CI 95%	
All groups	0.30	[0.28; 0.51]	0.14	[0.16; 0.40]	
Archaea	0.44	[0.33; 0.58]	0.27	[0.16; 0.53]	
Bacteria	0.43	[0.42; 0.81]	0.47	[0.48; 0.89]	
Fungi	0.30	[0.24; 0.58]	0.19	[0.18; 0.45]	
Protozoan	0.53	[0.52; 0.73]	0.42	[0.27; 0.58]	
Virus	0.50	[0.42; 0.74]	0.40	[0.24; 0.59]	

Table S3. Difference in the Shannon index between the questionnaires Q1 and Q2, and Q1 and Q3 for 2019 edition.

2019 edition					
Group	Q2-Q1		Q3-Q1		
Group	Effect Size	CI 95%	Effect Size	CI 95%	
All groups	0.17	[0.07; 0.29]	0.08	[-0.05; 0.18]
