

Supp. Fig. S2 *Orc1 Orc2* deletion produces smaller livers with larger nuclei and more mortality in female mice.

A. Representative picture of livers of female *Orc1 Orc2* WT and liver-specific double KO (dKO).

B. Representative H&E staining of liver tissue from *Orc1^{ff} Orc2^{ff} ROSA26^{stop-EYFP}* (WT) and *Alb-Orc1^{ff} Orc2^{ff} ROSA26^{stop-EYFP}* (dKO) females.

C. Kaplan-Meier plot for *Alb-Orc1^{ff} Orc2^{ff} ROSA26^{stop-EYFP}* (dKO) females post natally.
