

Supplementary Information 1: POPRES analysis

Spatial position of the samples

Location data for every country was downloaded from http://cs.baylor.edu/~hamerly/software/europe_population_weighted_centers.txt, which gives the population center for most European countries. Montenegro was not listed, so coordinates were set to its capital Podgorica. This should not be problematic as only one sample from Montenegro entered the analysis.

Table S1: **Location and number of samples used for inference (compare (Ralph and Coop, 2013)).**

Country	Nr individuals
Austria	14
Hungary	19
Czech Republic	9
Slovakia	1
Slovenia	2
Poland	22
Romania	14
Bulgaria	1
Macedonia	4
Bosnia	9
Croatia	9
Serbia	11
Montenegro	1
Albania	9
Total	125
